IG1000P

IG2000P

IG3000

Kipor compact and lightweight inverter generators provide clean and quiet portable power. They are fuel efficient and easy to service. Kipor inverter generators are perfect for the RV or campsite or wherever you want all the conveniences of home.

These generators produce a pure AC sine wave at a steady 60 cycles making them well suited for running all types of sensitive electronic equipment as well as microprocessor controlled appliances and tools. A high efficiency engine produces low emissions. All generators meet EPA and CETL standards and all but one are offered with CARB certification as well. A sophisticated smart throttle system varies the engine speed according to the load resulting in lower fuel consumption. The generators feature overload and low oil level shutdown protection.

Kipor generators come with an accessory kit including an oil fill bottle, spare spark plug and spark plug wrench and 12 volt DC charging cables. Wheel kits and starting batteries are standard on 3000 watt and larger generators.

IG2000P Inverter Generator
Output 1600-2000 watts

The IG2000 gives you more power with a compact portable design. It can run a small refrigerator or microwave oven, electric skillet or a portable heater. A powerful 500 watt mobile spotlight is available as well. Parallel ready.

19-8535 IG2000P CARB

IG2600HP Inverter Generator
Output 2300-2600 Watts

The IG2600HP comes standard as a parallel version. A convenient retractable wheel and handle kit makes it very easy to transport and move around any place you need it. With a 2300 watt run load, it is able to provide a lot of steady clean power to operate a number of different appliances and tools. With the optional parallel kit, two IG2600HP models can be connected to provide 5200 watts of power. Parallel ready.

19-8545 IG2600HP

IG3000 Inverter Generator
Output 2800-3000 watts

The IG3000 handles large power needs. Run a 13,500 BTU air conditioner or a 1.2 HP air compressor or an automatic washer. It comes with an electric starter and a maintenance free battery. The standard wheel kit with locking swivel wheels makes it extremely easy to move on all but the roughest surfaces. Its low noise design makes it acceptable in any campground. Its large capacity fuel tank enables it to run 8 hours at full load on a single tank of gasoline. It features a 120V 20A duplex and a 30 amp twist lock receptacle.

IG4300 Inverter Generator
Output 4000-4300 watts

New for 2011, Kipor introduces an advanced, higher powered version of its best selling IG3000. With a full load potential of 4000 watts, it can easily run a number of appliances simultaneously with the same high quality and clean power. It features dual 120 and 240V capability enabling it to run all types of appliances and tools. The added horse power of the 277 cc engine and the larger alternator enable it to start and run most air conditioners without start capacitors. The IG4300 also features a digital panel displaying voltage, amps, and frequency along with a duplex GFCI receptacle.

19-8565 IG4300 CARB

IG6000H Inverter Generator
Output 5500-6000 watts

The IG6000 and IG6000H are designed with the larger trailers in mind. With a max load of 6000 watts and dual 120/240 voltage, it can easily power many appliances with a power draining startup. The 5500 watt run load enables the simultaneous operation of a number of appliances and tools. The panel has been redesigned to feature a voltage selection switch and a GFCI receptacle as well as a more convenient and accessible L14-30R 240V receptacle. The IG6000H model features wheelbarrow style handles and large pneumatic tires enhancing portability over rough surfaces.
